

# GET IT ON TAPE - AS PROVIDERS ENHANCE AI, LAWYERS MUST OBTAIN VITAL INFORMATION

---

*Chicago Lawyer*  
11.2024

Change, especially technological change, is all the rage among legal commentators today. As the American Bar Association puts it, lawyers, firms and judges have historically been slow to adapt to change, but recent advances in information technology have revolutionized the industry. Automation and artificial intelligence (AI) are transforming the legal profession by making it more efficient to review contracts, search documents and synthesize electronic discovery.
